Erasmus + project - Building Resilience to Address Domestic Violence

EMPOWER

The Erasmus + project - Building Resilience to Address Domestic Violence EMPOWER project partners would like to welcome you to reading our last newsletter. Last six months of the project implementation were full of activities and great accomplishments.

What have we been up to?

- 👉 Meeting in Ireland;
- 👉 Piloting of intellectual outputs;
- 👉 Multiplier events;
- 👉 Final conference and meeting in Belfast.

Meeting in Ireland

Face to face meeting in Ireland took place on 28th of August. Unfortunately, three of participating partner organizations had to attend this meeting online but this was not an obstacle because partners had a very productive meeting discussing about translations of intellectual outputs, piloting, upcoming multiplier events, dissemination and other important things related to the project.

Piloting

All the partners successfully organized piloting events of all four intellectual outputs. Some of the events were held face to face while other had to be done online. We received very positive and constructive feedback. Below you can see a few pictures from the piloting events in partner countries.

Piloting in Portugal

Piloting in Lithuania

Piloting in Malta

Piloting in United Kingdom

Multiplier events

All the partners organized Multiplier Events in their countries. During these events EMPOWER project results were presented which the whole team achieved during implementation of the project. These events gave people the opportunity to hear about our project, ask questions and discuss their thoughts and impressions with organizers which are the project partners. It was very rewarding to see so many interested people and receive such positive feedback from them.

We are sharing some moments from multiplier events below.

Multiplier event in Malta

Multiplier event in Germany

Final Conference and meeting in Northern Ireland

Partners had the final transnational meeting on 13th of October in Belfast, Northern Ireland. During the meeting partners reported about finished piloting events, multiplier events, discussed about the dissemination and details related to project management.

In the evening final conference took place in Linen Hall Library with 80 participants. Not only the project and its results were presented during this event but also there was a guest speaker, Debbie Mehaffy, Counsellor and Life coach. She spoke at the conference implementing the EMPOWER project with women from Ballybeen Women's Centre and about her work Women's Aid Northern Ireland – the lead voluntary organization in **Northern Ireland** addressing domestic and sexual violence and providing services for women and children.

Final meeting

Final Conference

The entire EMPOWER project team would like to thank you all for being with us!
